

Dear FCC:

I received correspondence from SLD dated March 8, 2004 stating that my application for YR7WH was rejected because the signature block was blank. I appealed and received correspondence dated May 11 stating that "FCC rules do not permit the SLD to consider requests for waivers." This is the first year that I was involved with submitting 471's to SLD and inadvertently overlooked the signature block. Otherwise, the application was complete. Therefore, I am appealing to the FCC to allow Florence Unified School District to resubmit our 471 for YR7WH and be considered for funding. Thank you for your consideration.
